OPTIONS OF ORDER

Orders can
be made from:

- ✓ Photo portal
- ✓ Photo kiosk
- ✓ Photo software
- ✓ Facebook App
- ✓ Dealer portal (franchise)
- ✓ iFrame
- ✓ 3rd party websites (eg. Froogle)
- ✓ Store
- ✓ Phone
- ✓ and More

ITEMS' CATALOG

Items catalog offers: photos, souvenirs, photo items and more.

- ✓ The catalog gets automatic updates from **Google Analytics**, to be able to adjust and show them accordingly to this data.
- ✓ Items can be added directly by **partners**, no site administrator is needed.
- ✓ The catalog gets **automatic updates** from vendors/suppliers, so that it could update prices, stock, items and etc.

DELIVERY OPTIONS

- ✓ Users can select the following **delivery types**: either home delivery service or pick their items up from the shop (or partners' shops). Orders can be delivered immediately (extra fee).
- ✓ The time of delivery is **calculated individually** for home-delivery service and the pick up point according to production and the delivery time of every product group, including days off. Additionally, the time of delivery is calculated according to a partner's workdays.
- ✓ Delivery is integrated with **parcel services**.
- ✓ Status is automatically **identified** when a customer receives goods.
- ✓ **Price-breaks** (including free shipping) for delivery according to the value of the basket are set.
- ✓ Setting of a different pricing for each **partner's shop** is made.

PAYMENT OPTIONS

- ✓ Integrate these **Payment methods** offline: Wire Transfer, C.O.D., etc.
- ✓ Integrate Payment Gateway online with a standard solution. **Online Payment** gateways which we have covered under a standard offering are presented below: PayPal, Moneybookers and etc.

Additional options:

- ✓ The possibility to **set payment** according to the country's banks.
- ✓ The payment is set according to **delivery** methods.
- ✓ The pricing of payment methods **to promote** certain forms of payment.
