Description

FF Photo Sales System is a virtual photo market system, which is created for photographers and for those who need photos online: designers, advertising agencies, magazines, newspapers and others.

The photo sale system can be integrated with the main system: after the purchase of photos, the photo sale system user can print them directly via FotoFamily™ (main) system.

Benefits

The system **ATTRACTS** photographers and allows them to find new buyers.

Photo Sales System is not just a simple e-commerce system. It has much more: the **COMMUNITY**! Here visitors can meet members of any skills, i.e. from photo novices to professionals and share their experience.

It ensures the possibility of **INTEGRATION** with other systems of the FotoFamily™. There is also a possibility to make photo prints and souvenirs such as photo canvas and etc..

How does it work?

FF MAIN PHOTO SYSTEM

4. Get photo prints or souvenirs

Customers:
Mass media,
marketing company,
an ordinary user
and etc.

3. An opportunity to print
a purchased photo file
via FF's main photo
