

# FF Photo Tuning System

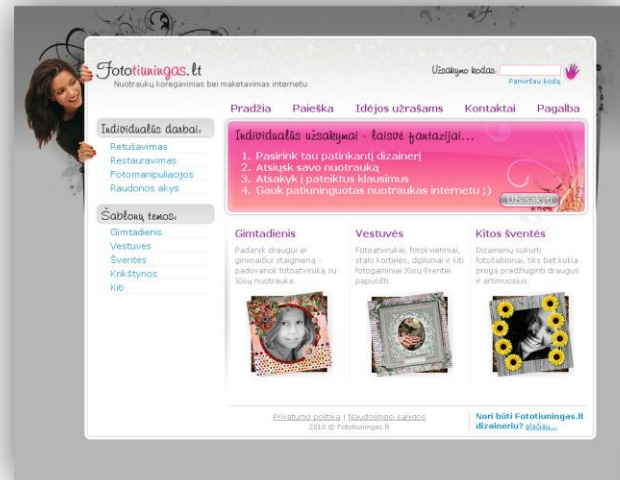

## EASY STEPS:

Choose designer

Send a photo

Pay fee

Get a "PIMPED" photo

## Description

FF Photo Tuning system is created for people who want to get professionally modified photos with ease and for designers who want to sell their services online.

Photos can be modified according to the designer's template or to an individual agreement of the particular designer.

In addition, the FF Photo Tuning system is compatible with the FotoFamily™ main photo platform. Customers can immediately order photo prints or souvenirs with modified photos.

## Benefits

FF Photo Tuning system can operate normally or it can be easily integrated into the FF's main photo platform.

No registration needed: order details can be accessed via the unique order's number.

A very easy management of payments for designers.

FF Photo Tuning system can increase your website traffic and sales.

# How does it work?
